

Educational Services

Learning That Helps Organizations Thrive

Volunteer Alberta offers a range of educational services, including webinars, presentations, workshops, and other learning opportunities tailored to your organization. We work with nonprofits, municipalities, and community organizations across Alberta to grow their capacity and advance their missions. Our specialists deliver a variety of services, from hourly sessions to multi-month engagements, scaled to fit your organization's size, budget, and goals.

Our Services

- **Webinars**
- **Presentations**
- **Workshops**
- **Coaching**
- **Speaking Engagements**

**All services are customizable, available online or in person (travel fees may apply). See our website for full pricing, including member pricing options.*

How to Get Started

Submit an inquiry on our website and tell us a bit about what you are looking for. We'll follow up with a discovery conversation to find the right fit for your organization. VA members save 20% on educational services. Since we never want cost to be a barrier to getting support, flex pricing is available for smaller member organizations.

Areas We Can Support

VA offers educational experiences in topics including (but not limited to) volunteer management and engagement, strategic support, (un)learning, communications, facilitation, policy and operations, and research and evaluations. Sessions are led by specialists with real experience in the nonprofit sector.
